## The Buzzard, the Bat, and the Bee

It is said that if you put a **buzzard** in a pen that is 6 feet by 8 feet and is entirely open at the top, the bird, in spite of its ability to fly, will be an absolute prisoner. The reason is that a buzzard always begins a flight from the ground with a run of 10 to 12 feet. Without space to run, as is its habit, it will not even attempt to fly, but will remain a prisoner for life in a small jail with no top.

It is said that the ordinary **bat** that flies around at night, a remarkably nimble creature in the air, cannot take off from a level place. If it is placed on the floor or flat ground, all it can do is shuffle about helplessly until it reaches some slight elevation from which it can throw itself into the air. Then, at once, it takes off like a flash.

It is said that a **bumble bee**, if dropped into an open tumbler, will be there until it dies unless it is taken out. It never sees the means of escape at the top, but persists in trying to find some way out through the sides near the bottom. It will seek a way where none exists until it completely destroys itself.

With what difficulty are you struggling? Are you seeking a way out by getting a running start? Are you trying to

find a cliff you can hurl yourself off of? Or are you at a low point in your life, searching desperately for the exit somewhere near the bottom? Just look up! Look upward to God and cast your burdens and cares upon Him! Trust in Him; follow His guidance; He will never forsake you!

*"Humble yourselves therefore under the mighty hand of God,  
that he may exalt you in due time:  
Casting all your care upon him; for he careth for you."  
(1 Pet. 5:6-7)*

*"...exhort one another daily, while it is called Today..."  
(Heb. 3:13)*
